NORTH WATER

Have you heard about our new collaboration?

Scrap University Kids is partnering with an amazing company called North Water Canada. They bottle their delicious water in aluminum cans!

Buy a case of North Water from now until Dec 31, and you will receive a FREE copy of "The Girl Who Recycled 1 Million Cans" a learning adventure for Ellie and her friends, who set off to collect a million cans. Along the way, they learn that all metal can be recycled like our aluminum, infinitely recyclable bottles.

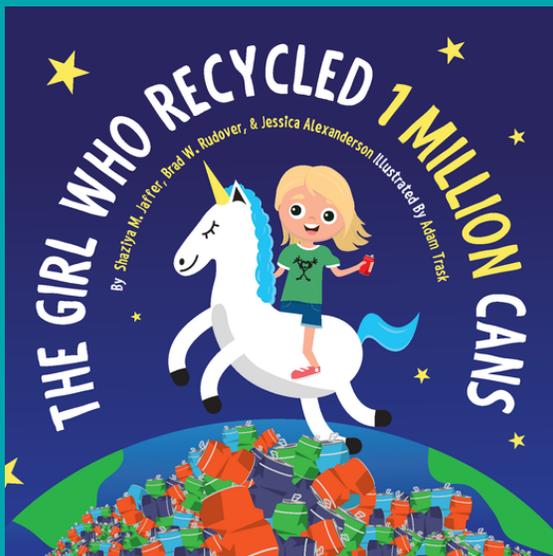

They have the best motto!

We choose the path less travelled
and make a positive impact
so we can leave the planet better than we found it.
THIS IS OUR NORTH.

You can purchase your case of North Water here:

SHOP NORTH

Thank you, North Water Canada
for everything you do to help our planet! You guys are AMAZING!

Million Cans Recycling Program

Saint Matthew Catholic School (Forestville, CT)

Grade 3 learned about recycling.

HW Green Company Inc is a scrap recycling center located in Plainville, Connecticut. They begun a new initiative to "adopt" local schools grades 1- 3 for a recycling education initiative.

Their Mission:

Eliminate metal from the waste stream through education.

What does a magnet pick up?

#recycling #grade3 HW Green Co Inc.

Did you know that *The Girl Who Recycled 1 Million Cans* is great for early childhood education? Owen is just turning 4 in JK and he now loves to recycle!

My son age 4 and I have read the book together a few times.

He really enjoys the fun adventure story and how the team of kids work together to collect metal cans to buy a unicorn.

I was amazed to see how quickly he learned and picked up on the message that Recycling starts at home in a fun and easy way. He couldn't wait to collect metal cans at home. Now when we are finished with a container, he asks me

"what bin does this go in"- bingo!!

Did I mention he is four years old..

My son asked to take the book to school to share with his Kindergarten classmates and ask his teacher to read it to the class!

– Rachel ★★★★★

News from Urban Academy

New Westminster BC, Canada,

Did you hear about 'The Girl Who Recycled 1 Million Cans?!' We had a special visit from Shaziya M Jaffer (UA parent) who read the book that she and her friends at Scrap University Kids wrote! Students learned and engaged in the topics of recycling, community, math, financial literacy, perseverance, sharing, teamwork and donating.

After reading the book some students were so inspired that they planned to start looking for cans at the park.

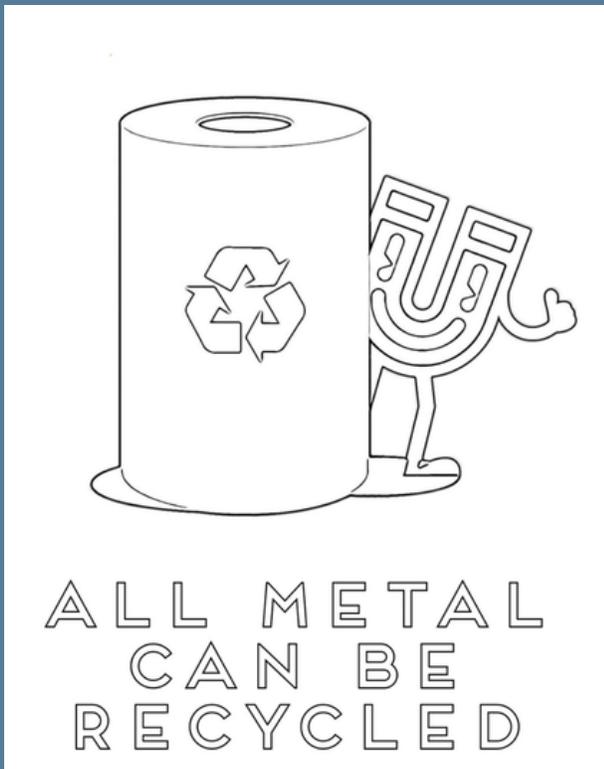

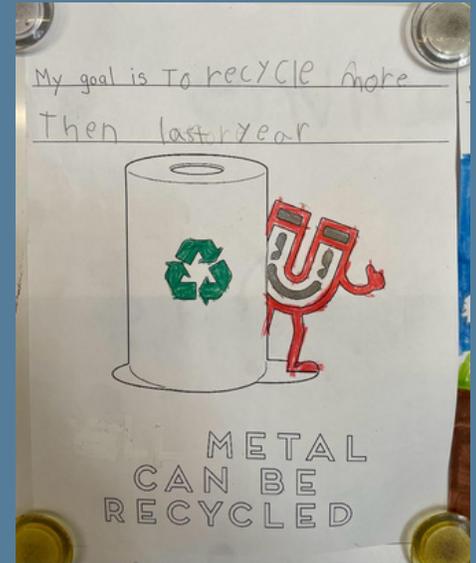

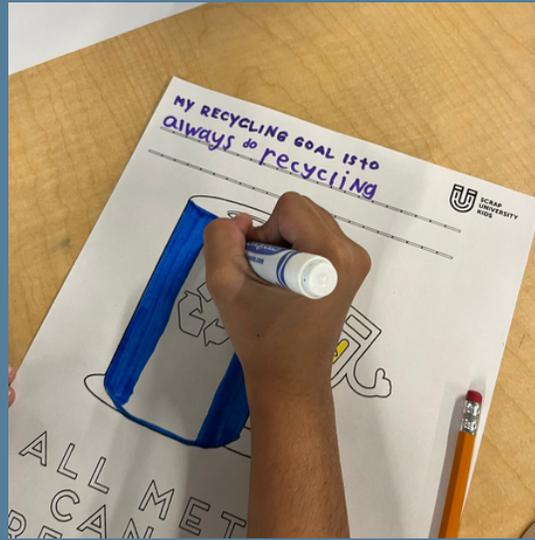

This book and experience align perfectly with the students' current unit of inquiry about community, and UA's current bottle and can drive.

This student initiative is raising money to provide safe drinking water to indigenous communities, and you can participate by returning bags of bottles and cans at any Return-it-Express, and printing out labels there under the school phone number (604-524-2211).

Shaziya M Jaffer reading to students

Check out some of the amazing artwork from the students at Urban Academy. 

We would love to see your creations too. Please email them to Jess@ScrapUniversity.com so we can display them on our website.
